## Experience

### UI/UX дизайнер

2024 -

I completed courses in web design, where I gained the following skills: conducting User Research, building Wireframes, experience in IT product development, understanding layout adaptability and features of different types of screens.

I am engaged in the development and implementation of creative projects, which include: creation of interfaces with an emphasis on convenience and aesthetics, use of modern tools and technologies, such as Figma, Adobe Photoshop, Illustrator.

### Graphic designer

I was engaged in layout of printing products: business cards, invitations, booklets, certificates. I also have experience in retouching, color correction and image processing.
